

A message to all union members . . .

DON'T SHOP KESSEL!

You can count on one thing: Union members stick together! Folks in this area have a long and proud labor tradition. The famed auto sit-down strikers stand as historic testimony on behalf of workers unity and solidarity. Significant economic and social gains today taken for granted in union contracts have roots here. Kessel mocks labors heritage. Kessel ignores workers rights.

That's why the United Food & Commercial Workers Union Locals 40 and 539 ask you to support the boycott of Kessel Food Stores in Flint, Saginaw and Corunna. By taking advantage of our rough, even desperate situation Kessel is attempting to remove hundreds of good paying jobs from our already diluted economy. If Kessel successfully eliminates these union jobs possibly your industry or your job may be next. So please, **Don't Shop Kessel!**
