

HARRY CHAPIN

Hotline/Flint Voice Benefit

December 21, 1978

"I am coming back to Flint to do another benefit for the Hotline because I get a chance to look at many, many organizations around the country—I get 30 to 40 requests for benefits a week—and I find very few of those organizations are doing the kind of homework, the kind of community service the Hotline is. It's an organization that's not afraid 'to get it's hands dirty.' I think that in a country where, sadly too few of us are getting involved on an ongoing basis to make it a better world, when you find an organization like the Hotline caring about people, that's the kind of organization we should support."
